INTRODUCE MANY MEASURES

Of Importance Affecting Large Interests

Democrats Plan to Force Vote on Reform Measures by Holding Up Appropriation Bills. May Not Work.

Columbus, Jan. 16.—Both the house and the senate were busy yesterday but had eased up a little from the pace maintained since the first days of the session. Yesterday there was a movement started by Senator Espy, one of the original Drakers, for a further investigation of affairs in Hamilton county. Other matters which came up were a bill providing for an executive residence and the election of senators by direct vote of the people.

In the house the Wert bill for the initiative and referendum in municipalities was the most important matter to come up though various other bills saw the light of day. The house had a lively debate over the proposition of using the flag and relic room for committee meetings and had the old soldiers aroused to fighting pitch.

Schuler's public utilities bill was not introduced as had been expected but will be forthcoming in a few days. The subcommittee on cities, which is to formulate a new municipal code bill is expected to report the Paine bill which went through the house last session, for consideration.

Last night there was a hearing by the temperance committee of the senate of arguments for the Rose county option law. No decision was reached and it is said committee meetings will be held each day until some action is determined on.

This morning there was a meeting of the senate committee on taxation which was addressed by Hon. Walter Ritchie, of Lima, who spoke against the Howe franchise tax bill as it relates to the interurban companies of the state.

This afternoon Senator Schmidt, of the committee on privilege and elections reported to the senate that his committee was favorable to the Atwell resolution on the subject of initiative and referendum.

An inheritance tax bill was introduced Wednesday by Senator Harper, Cincinnati. It provides that any lineal descendant of the testator must pay in to the state treasurer two per cent on any inheritance above \$10,000.

Berea wants a state normal school located there. Senator Schmidt has introduced a bill providing for such an institution.

Amateur baseball on Sunday cannot be stopped if the bill of Representative Smith goes through. The bill legalizes amateur Sunday games.

A Democratic plan to force a vote on every one of the great reform measures that will come before the assembly has been adopted.

Every appropriation measure will be held up in the Democratic-controlled senate finance committee if the house committee attempt to hold from a vote any measures which have the support of the progressive legislators of both parties.

This plan, however, to force a vote on all reform legislation by holding up appropriation measures may be checked in the house by a ruling of Speaker Eagleson.

On a bill to appropriate \$30,000 for a hospital at the Girls' Industrial home, Eagleson ruled that only a majority vote was needed to pass, because the appropriation was to an established institution.

Ninety per cent of the appropriations are to such institutions. The Democrats hold a two-thirds vote should be required.

A form of medical treatment allied to osteopathy would be formally introduced into Ohio by a bill being prepared by Representative Elison. The treatment is for troubles that may be reached by massage. Regular physicians will fight both it and osteopathy.

President Ellis of Ohio university, Athens, is here to renew the fight

MASSILLON NEWS

Special to Morning News.

Massillon, O., Jan. 16.—Jacob H. Meyers, aged 77 years, died at the home of his brother Addison Meyers, on Wellman street, at 2:45 this afternoon. Death was due to a complication of diseases brought on by old age. Mr. Meyers had come to this city from Canal Fulton to make his home in this city. He had been almost a lifelong resident of Canal Fulton, although he was born and spent his early boyhood in Manchester, O. He had been failing for years and for some time he has been afflicted by total blindness. The only surviving relatives are two brothers, Addison Meyers, of this city, and John W. Meyers, of Smithville, O. It is probable that the funeral will be held from the late residence and the body will be taken to Smithville for burial.

ing brought to the jail a whiskey bottle containing machine oil was found upon his person. This he had been drinking evidently supposing it to be whiskey. He repeatedly attempted to get hold of the bottle and swallow its contents but the officers restrained him. It is believed that the "doctor" is partially demented. He will be brought before the mayor tomorrow morning.

Mrs. Ellen McGill, aged 49 years, died at the Massillon State hospital today. She had been an inmate of the institution for nine years, having been brought there from Kent shortly after the founding of the asylum. So far as could be learned by the officials of the hospital, she had no living relatives. The funeral will take place from the undertaking rooms of Hollinger and Hansen at 2:30 tomorrow afternoon. The body will be buried in the Massillon cemetery.

He was taken to the workhouse by Chief Brittle this afternoon.

A man who gave his name as "Dr." Cross was arrested this afternoon on the charge of drunkenness. After be-

The Woodman bowling team and the Grands of the Brunswick league clashed on the Brunswick alleys this evening. Two of the three games of the match were easily taken by the Woodmen but they lost the third by two pins. The bowling was for the most part very poor, the highest team score being 774. None of the players bowled better than 190. The two victories gave the Woodman team a very substantial boost in the percentage column.
